FORMAT & FAQ'S

Format

This event will follow a Swiss format with 6 rounds for all players to participate in. There will be no top 8 cut. Players have the option to play 6 games over Saturday and Sunday. Players must bring a standard army of 1,000 points following the Galactic Conquest Event Rules guidelines.

Each round will be timed at 2 hours and 30 minutes, and will utilize the time format found in the Galactic Conquest rule set. Consulars will not be able to tell players how much time is left in the round. When the final time has been called there will be a 15 minute run off time. Players are not allowed to start a new round at this call and may only finish out the current round they are on.

For this event we will be following everything as written in the Galactic Conquest Event document with the following exceptions. Byes and concessions will award 900 points defeated instead of the 700 points defeated that is listed in the document.

Player Materials

Players should have all materials needed to play Star Wars Legion. This includes tokens, silhouette(s), range rulers, movement tools, models, associated unit / upgrade cards. Players are responsible for bringing at least one of each card that is represented in your list. The card may be physical cards from AMG or printed out using the Print and Play Cards document provided. Players must bring enough cards to keep track of any exhaustible cards or effects.

All models in each player's list must be fully assembled, based, and painted at least three colors.

Players may use 'proxy' models in their lists provided they follow the following provisions:

1. They are mounted on the same base as the unit they are replacing.
2. They responsibly match the size and aesthetic of the unit they are replacing.
3. They are clearly and easily distinguishable from other units in the list.
4. They are approved by the Head EO prior to the event.

Players wishing to use proxy models must send an image of each unit that they wish to use to the Head EO no later than November 7th for approval. All decisions rest with the Head EO and the decisions of the Head EO are final. Players must have the official model as well as the pre-approved proxy available in order to play. Please send all requests to Mitchem94@hotmail.com.

Lists

Longshanks will be used to facilitate this event. Players are required to update their lists to the Longshanks page before 11:59 PM CST November 7th. Lists should be submitted in a [Table Top Admiral](#) or [Legion HQ2](#) JSON format, please include Battle Cards and Command Hand. Please use the JSON link and not a URL or Text format.

Players must also bring at least 1 printed copy of their list. This is in case there are any unforeseen circumstances that may come up with the internet/data services. Players are encouraged to bring additional printed copies of their lists if they wish to do so for their opponents. Battle deck may be printed on these additional copies but command cards do not.
